Price List to the Trade

**THE COLE
NURSERY
COMPANY
PAINESVILLE, OHIO**

*Spring
1925*

“Everything that is Good and Hardy”

Office and grounds one and one-half miles west of Painesville, on Mentor Avenue, and 28 miles east of Cleveland. C. P. & E. cars every hour from Cleveland and Painesville. Stop 79 is in front of our office and grounds. Bell Telephone No. 97.

RESPONSIBILITY

We endeavor to send our patrons the grade and quality of stock ordered. We do not guarantee our products or assume any responsibility after they leave our nursery, as conditions always exist over which we have no control. It is understood, in case of error on our part, that we shall not be responsible for a greater amount than the price paid.

TERMS

Two per cent. off for cash before shipment on order amounting to ten dollars or more. To parties having satisfactory credit arrangement or account with us, one per cent, ten days, thirty days net.

No claims for rejection or deficiencies will be entertained unless made within ten days after arrival of goods.

PRICES FOR BOXING AND PACKING

Boxes 30 x 30 inches, 10 feet long	\$4.50
30 x 30 " 8 " " 	4.00

We reserve the privilege of making an additional charge for trees of special grade or quality, personally selected by purchaser.

You probably know that that "Good Shade" is very scarce and will continue to climb in price for a number of years. We have made extensive and costly plans for growing shade trees that will have a mass of fibrous roots, thereby insuring successful transplanting. Among the many unique and up-to-date nursery ideas, conceived by our Mr. G. S. Cole, is the new "digger" partially described on page forty-seven. During the last two years we have been told many times that our trees were worth a great deal more than the average, because the trees grow and recover quickly from the effects of transplanting.

sinensis. Chinese purple. —		
2 years	3.00	25.00
sinensis alba. Chinese white. —		
2 years	4.50	

One item to notice in our list of "Lining Out Stock" is:

ARISTOLOCHIA SIPHO (Dutch-	Per	Per
man's Pipe). Strong plants from	10	100
2 $\frac{1}{4}$ inch pots	\$20	\$180

Our belief in "Pot Plants" for lining out stock, of the better and higher priced varieties of ornamentals, is growing stronger every year. One hundred percent stands and sure, quick growth are sufficient reasons.

speciosa newmanii. Orange yellow. July and August	1.20	10.00
SALVIA—		
azurea. Sky blue. August and September	1.20	10.00
azurea grandiflora (pitcherii). Rich gentian blue. August and September	2.00	
SAPONARIA—ocymoides. Pink. May and August	1.20	10.00
SCABIOSA—		
caucasica. Lavender. All summer	2.50	20.00
japonica. Lavender blue. July to September	1.50	12.00
SEDUM—		
acre. Yellow. June and July	1.00	8.00
aizoon. Golden yellow. July and August	1.20	10.00
ewersi. Pink. July	1.20	10.00
glaucum. White, blue foliage	1.20	10.00
sieboldi. Pink. Round blue foliage. August and September	1.80	15.00
stoloniferum coccineum. Crimson. July and August	1.20	10.00
stabil. Crimson foliage in autumn	1.20	10.00
spectabile. Rose colored. August and September	1.00	8.00
spectabile brilliant. Crimson. August and September	1.00	8.00
SPIREA—(See Filapendula.)		
STATICE—latifolia (See Limonium).		
STOKESIA—laevis (cyanea). Blue, August and September	1.20	10.00
THALICTRUM—aquilegifolium. White. June	2.00	
adiantifolium. Yellow	2.00	
TRITOMA—pfltzeri (See Kniphofia).		
TUNICA—saxifraga. Dwarf, compact, light pink. July to September	1.20	10.00
VALERIANA—coccinea. (See Centranthus.)		

(For less than five plants of a kind add 3 cents each.)

	Per 10	Per 100
VERONICA—incana. White foliage. Blue flowers. July and August.....	\$ 1.20	\$10.00
longifolia subsessilis. Blue. August to October	1.20	10.00
maritima. Blue. July to September....	1.00	8.00
spicata. Blue. June to August.....	1.00	8.00
VIOLA cornuta. (Tufted Pansy.) May to October—		
Black Prince. Very deep purple.....	1.00	8.00
blue perfection. Deep purplish blue.....	1.00	8.00
lutea splendens. Rich golden yellow.....	1.00	8.00
mauve queen. Rosy purple.....	1.00	8.00
Scotch Border. A superb mixture.....	1.00	8.00
white perfection. An excellent white....	1.00	8.00
Princess of Wales. Sweet-scented English violet	1.00	8.00
YUCCA—Filamentosa. White. June and July	2.00	15.00

(For less than five plants of a kind add 3 cents each.)

Bulbs

	Per 10	Per 100
COLOCASIA ESCULENTA (Caladium). (Elephant's Ear.)	\$ 2.00	
CANNA—		
King Humbert. Branze foliage and orange-scarlet flowers	1.50	
Mrs. Alfred F. Conard. Salmon pink....	1.50	
The President. Immense red.....	2.00	
Wyoming. Orange flowers with purple bronze foliage	1.50	
DAHLIA—		
A. D. Lavona. Rosy pink show.....	1.00	6.00
Big Chief. Single crimson.....	1.50	
C. W. Bruton. Yellow decorative.....	1.50	
Independence. Purplish red decorative....	1.50	
Jack Rose. Crimson red decorative.....	1.50	
Lilac Decorative	1.50	
Maurice Rivoire. Collarette, ox-blood red, white collar	1.50	
Red Hussar. Dazzling scarlet.....	1.50	
GLADIOLUS—		
Alice Tiplady. Orange saffron; primulinus	.75	6.00
America. Soft flesh pink.....	.35	2.50
Baron Hulot. Royal violet blue.....	.75	6.00
Cairo. Clear red.....	.80	6.50
Defiance. Blush white; large and tall....	.90	8.00

GLADIOLUS—Contd.		Per 10	Per 100
Dorrit.	Delicate pink	\$ 1.00	\$ 8.50
Gretchen Zang.	Soft pink, melting into scarlet on lower petals	.45	3.50
Halley.	Delicate salmon pink; early	.40	3.00
Independence.	Deep pink, almost scarlet	.45	3.50
L'Immaculee.	Beautiful, tall, pure white	.45	3.50
Mary Pickford.	Creamy white; yellow throat	.85	7.00
Mrs. Francis King.	Large, bright scarlet	.40	3.00
Mrs. Frank Pendleton.	Salmon pink; throat blotched red	.45	3.50
Mrs. Watt.	Striking, velvety wine color	.55	4.50
Niagara.	Canary yellow and carmine	.45	3.50
Pink Perfection.	Apple blossom pink	.60	5.00
Princepine.	Carmine, with white blotches	.50	4.00
Schwaben.	Yellow; throat blotched garnet	.50	4.00
War.	Large, brilliant crimson	.60	5.00
Mixture.	Good standard varieties	.25	2.00
KUNDERD'S RUFFLED GLADIOLUS—		Per 10	Per 100
Avalon.	Blush white with rose throat	\$.90	\$ 8.00
Kasson.	Large, rose-pink; deeper throat	.90	8.00
Dream.	Very large salmon red	1.40	12.00
E. J. Shaylor.	Very choice, deep rose-pink	.80	6.50
Orange Glory.	Beautiful orange; unusual	.75	6.00
Purple Glory.	Very large, deep maroon with almost black blotches	3.00	25.00
Rose Glory.	Purest rose-pink, deeper throat	1.50	12.00
White Glory.	White; iris blue throat; tall	1.10	9.00

ROOT PRUNING

The nurserymen, since the conception of the nursery business, have not had the advantages of labor saving machines developed for their particular use to the extent that other industries have. This has been, without doubt, one of the biggest drawbacks to the proper care in planting, transplanting, and root pruning on a large scale. The labor of root pruning by hand is out of the question for the cost of such operations is not justified by the price obtained for the tree. There is not a doubt, however, that if this could be economically done by machinery, it would be of great value in producing better trees and would certainly be the means of fewer failures in transplanting.

Mr. G. S. Cole of the Cole Nursery Co. has for years been developing a digger for this work. The difficulties were many. In the first place, there was not a digger to be bought of the size or strength to be used with power and there was not the proper method of applying power, available. The digger of the conventional "U" type, even when made in sizes weighing up to a ton, would not stay in the ground for any distance on account of plugging on the bottom edge. A digger of such weight cannot be taken out and cleaned by hand. This was overcome finally by designing a blade of such shape that rubbish came to the top of the ground, where it could be easily cleaned away. At the same time it was discovered that this blade, to work properly, had to run level, instead of with the usual suction given the "U" blade. This blade also was of much easier draft, due undoubtedly to the fact that it had a shearing action.

The power for such a digger was first furnished by a tractor with a home made drum mounted on the front which pulled two half inch cables of one thousand feet each. This, however, did not have enough power, in spite of the fact that it was geared very low. We finally purchased a northwest Crane which has been very satisfactory in pulling a thirty-six inch digger under four inch trees on a single line, without difficulty. On larger stock we shive the lines for greater power. This machine has a total draft of twelve tons on a single line.

The biggest difficulty encountered was the finding of some method of equalizing the cables or steering the digger. Several methods were tried and many known clutches, brakes, etc., proved a failure. It was not until two years ago that a reliable steering mechanism was designed that did all that was required. The arrangement is a drum holding about twenty feet of cable mounted on each beam, with a positive brake which is operated by a lever. The cable is let out by the necessary amount for equalization by releasing this brake. The success of the digger has been due, to a large extent, to this method of steering, for even with the proper power and digger, it must be kept in the row and if any speed is to be made, it must be steered with ease. We can average four one thousand foot rows an hour with this equipment.

The trouble and expense of such equipment is just beginning to be of evidence in our stock. The old blocks were all root pruned by this method three or four years ago. Since that time the younger blocks of shade and evergreens have been root pruned. In our present plantings we are rowing the stock two ways so that the use of power for root pruning and digging can be more successfully applied and more thoroughly done.
